AT A GLANCE

Vina Greenco Joint Stock Company (VGC) was founded and run by enthusiastic agronomists in 2010. Our staff are well trained and highly experienced in the agricultural and food production.

VGC's mission is to bring clean food to benefit the good health of our consumers with strict quality control complying with stringent international food safety and hygienic standards, Global G.A.P and Viet G.A.P. Our pomelo farms are authorized participating in the official assurance program for pomelo exporting to EU market with the production unit code (P.U.C).

We are proud to be one of the few Vietnamese enterprises applying high technology in our own fruit farms and transferring technology to our contract farms.

Our G.A.P certified key products such as pink pomelo, honey pomelo, are widely consumed in both local and international markets, i.e. Poland, Netherlands, China, Hong Kong, Canada, U.A.E, Russia, Cambodia, etc...making VGC the suppliers of primary choice among its competitors in the country.

VinaGreenco are now securing the supply for our partners through our current sourcing hubs, which are expected to reach 10 across the area soon, near farms in Vinh Long, Ben Tre, Soc Trang provinces.

VinaGreenco aims at making greater contribution to the consumer's quality of life by our safe and clean agricultural products. We pride ourselves on being one of the few Vietnamese companies successfully bringing our reputable home-grown produce to the world market.

PINK POMELO

Ben Tre province is home to a wide range of delicious and nutritious fruits in Mekong Delta region, typically pink pomelo. Unlike honey pomelo, pink pomelo's taste has a less strong flavor, but it is sweeter, and its color look so attractive. The pink pomelo is a favorite one not only for Vietnamese but also for international consumers alike. The world unique quality of pink flesh pomelo can be attributed to a distinct tropical agro-climatic zone and a fertile land.

VGC pink pomelo has successfully penetrated the Poland, Netherlands, China, Hong Kong, Canada, U.A.E, Russia, Cambodia etc. Farmers in the contract farms are supported by a team of our agronomists and QA staff in assuring Viet G.A.P and other international standards are strictly met.

With our sourcing hubs just a stone's throw away from our processing facilities, after being harvested, our pink pomelo is cleaned, and packed on modern processing facilities in compliance to strict international requirements.

HONEY POMELO (NAM ROI)

Vinh Long is home to Nam Roi Pomelo, a specialty fruit of the lush Mekong Delta region. It is juicy, sweet, having white flesh and its own characteristics compared to other clean fruits. Our honey pomelo is cultivated under EU standards for farms.

VGC Nam Roi pomelo has its presence in Poland, Netherlands, China, Hong Kong, Canada, U.A.E, Russia, Cambodia etc. Farmers in the contract farms are supported by a team of our agronomists and QA staff in assuring Viet G.A.P, Global G.A.P standards are strictly met. Our pomelo farms are authorized participating in the official assurance program for pomelo exporting to EU market with the production unit code (P.U.C).

With our sourcing hubs just a stone's throw away from our processing facilities, after being harvested, our honey pomelo is cleaned, and packed on modern processing facilities in compliance to strict international requirements.

Modern Trade:

We are partners of most of big super markets and convenient chain stores across Viet Nam

Traditional trade:

We have distribution centers in Ha Noi, Hai Phong, Da Nang, HCM and Can Tho.

International market:

Vinagreenco is a reliable supplier for exporters distributing VietNameese fruit worldwide.
